

## The Joy of Work: "Positive Approaches to Work, Career and Life!"

The joy of work

Is having a lifestyle

That gives enough

Even sometimes the road

Maybe tough.

Even in jobs you love

You sometimes get lost

That's why I strive to become my own boss.

Being a boss will mean that many will be employed,

Bringing happiness for all to enjoy it.

Hard work will determine what your success will become,

Alone with a positive attitude you will have a greater outcome.
