

The Artist

Grab a paper and start thinking. You can create most anything! From a little cottage to a big house. Draw a cat , or even a mouse .

Draw a line , make a circle . Change the colors, maybe purple. Add some shading, make it 3D. Don't you like designing? Try a

star , or make a heart . Don't tear your hard work apart! Fix mistakes, its not too tragic. Just add a little magic! A pinch of RED, add some BLUE. Aren't you excited too? To see a perfect work of art.

But there is still a missing part...Oh yes I remember! We got to add your name together! Make it UNIQUE, make it SHINE Say loud and proud,

"This work is mine" Show the WORLD  your potential! Make this experimental! Try all your ideas! That's what makes the world see us.

Now our lesson has come to an end. I hope you show a friend,

How every artwork, has a HAPPY END.
