

WOMEN

The greatest joy of being a woman,
It starts when you become a mother.

And once your children grow,
You realize so many wonderful things,
But tough times also come
Because your life changes completely,

But is it worth it.

Ultimately you do not mind if your body changes

Or your lifestyle

Because you win more than you lose.

And then you understand

How great the love you receive from your own mother is
Because there are women who give up everything to become mothers.

Some women die in labor,

Some struggle and suffer to conceive.

Sometimes they fail,

But they look for the way to satisfy their desire to love a child.
